

HOOPED PERIMETER BARRIERS

Autopa manufacture hooped perimeter barriers suitable for a variety of applications from impact protection and perimeter security to protecting door ways and entrances and marking pedestrian areas.

Hooped perimeter barriers are made to order and can be manufactured to suite individual site requirements.

- Available in 48, 60, 76 & 90mm diameter tube.
- From 500-1000mm above ground by 1000-2000mm overall length.
- Other sizes on request.
- Hi Vis hazard barriers available yellow/black or red/white.

- Galvanised finish as standard.
- Colour coated finish available extra.
- Also available brushed Stainless steel, grade 304.(Grade 316 available to order).
- Available ragged for casting in or flanged for bolting down.
- Ragged barriers are 300mm below ground.
- Removable options are also available.
- 3 bolts require for each flange for surface mounted barriers.

To secure perimeters fixed, removable or telescopic posts and bollards are also available. Telescopic posts and bollards are suitable when access is required to site.
