

The AUTOPA Double Trolley Shelter

The AUTOPA Double Trolley Shelter is a large, contemporary style shelter. Ideal for use on retail parks, it is designed to keep trolleys organised while protecting them from the elements.

Available ragged or flanged, the shelter is manufactured from galvanised mild steel with UV stable PETG sheeting. The Double Trolley Shelter can be coated to any standard BS/RAL colour (please state codes at time of order).

4m Double Trolley Shelter

Overall length: 5,000mm
Overall width: 4,000mm
Height above ground: 2,500mm
4mm clear PETG sheet

Installation & use

Supplied in component form for installation on site.
Flanged shelters require bolting down to a suitable concrete surface (no less than 400mm³ per leg) by means of four 12mm bolts per leg.
Ragged shelters are supplied with welded fixing spikes to ensure firm ground anchorage.
Ragged versions require a hole of at least 400mm³ per leg for casting into concrete.
This product is guaranteed for 12 months (*if installed and used correctly*).
