

## The AUTOPA Trolley Shelter

The perfect product for every retail establishment, the AUTOPA Trolley Shelter will keep your shopping trolleys dry and organised at all times. With a contemporary modular design, this shelter is designed to fit within a standard car parking space. A single shelter will store up to 36 standard sized trolleys. Extension bays can be added to the shelter to increase the storage available as required.

Manufactured from mild steel and 5mm UV stabilised PETG roofing, all of our trolley shelters are galvanised as standard to ensure their longevity. Shelters can be colour coated as required in any BS or RAL colour (codes must be specified at time of order).

Supplied flanged as standard.

## Product Range

Order Code	Description
138 000 500	Trolley Shelter (Galvanised)

## Accessories & installation parts

138 100 991	M16 Expanding Bolt (20 required per shelter)
-------------	--

## Product details

- Overall length: 4,221mm
- Overall width: 2,208mm
- Height above ground: 2,233mm

## Installation & use

Supplied in component form for installation on site. Sheeting is clamped to the frame using clamping strips. Flanged shelters require bolting down to a suitable concrete surface (no less than 400mm<sup>2</sup> per leg). 20 x 16mm bolts are required per shelter.

Ragged shelters are supplied with welded fixing spikes to ensure firm ground anchorage. Ragged versions require a hole of at least 500mm x 500mm x 400mm per leg for casting into concrete.

This product is guaranteed for 12 months (*if installed and used correctly*).
