

## The AUTOPA Exeter Polyurethane Bollards

The AUTOPA Exeter Polyurethane Bollard has a traditional design and offers site owners a robust vehicle access control solution. Corrosion and shatter proof, this bollard is cast in an engineering grade, heavy duty polymer around a steel core and is ideal for use around parking areas, pavements and pedestrianisation schemes.

Available ragged and black only, polyurethane bollards are a highly durable like for like replacement for traditional cast iron bollards.

## Options

Order Code	Description	Weight
138 124 020	Ragged	16.0kg

## Product details

980mm above ground  
300mm below ground  
130mm overall diameter

## Installation & use

Ragged bollards require a hole of at least 300mm deep for casting into concrete. AUTOPA recommends that bollards are placed no further than 1,200mm apart to ensure that no vehicle may pass between them. This product is guaranteed for 12 months (*if installed and used correctly*).
