

The AUTOPA Hexham Polyurethane Bollard

A classically styled ornamental bollard, the AUTOPA Hexham Polyurethane Bollard features a decorative cap and bevelled body. Suitable for a wide range of locations this bollard is an aesthetically pleasing solution to unauthorised parking or access.

Cast in an engineering grade, heavy duty polymer, around an integral steel core, these bollards are corrosion and shatter proof. Available ragged and black only, this bollard is a durable replacement for traditional cast iron bollards.

Options

Order Code	Description	Weight
138 124 030	Ragged	22.0kg

Product details

915mm above ground
300mm below ground
190mm overall diameter

Installation & use

Ragged bollards require a hole of at least 300mm deep for casting into concrete.
Ragged bollards are supplied with welded fixing spikes to ensure firm ground anchorage.
AUTOPA recommends that bollards are placed no further than 1,200mm apart to ensure that no vehicle may pass between them.
This product is guaranteed for 12 months (*if installed and used correctly*).
