

The AUTOPA Morpeth Polyurethane Bollard

Traditional and elegant in design, the AUTOPA Morpeth Polyurethane Bollard is suitable for a variety of locations and purposes. Cast in an engineering grade, heavy duty polymer around an integral steel core, this slim-line ornamental bollard is corrosion and shatter proof and can be used as part of a robust vehicle access control solution.

Available ragged and black only, polyurethane bollards are a durable like for like replacement for traditional cast iron bollards.

Options

Order Code	Description	Weight
138 124 060	Ragged	15.0kg

Product details

900mm above ground
300mm below ground
110mm overall diameter

Installation & use

Ragged bollards require a hole of at least 300mm deep for casting into concrete.
Ragged bollards are supplied with welded fixing spikes to ensure firm ground anchorage.
AUTOPA recommends that bollards are placed no further than 1,200mm apart to ensure that no vehicle may pass between them.
This product is guaranteed for 12 months (*if installed and used correctly*).
