

The AUTOPA Streetwise Polyurethane Bollard

The AUTOPA Streetwise Bollard is a hard wearing polyurethane bollard reinforced with a steel core. Manufactured from an engineering grade, heavy duty elastomeric polymer, the Streetwise Bollard is ideal for use around pedestrian precincts, pavements, play and parking areas, as part of traffic calming measures, pedestrianisation schemes and as a deterrent to ram-raiders.

Supplied black as standard, all bollards are fitted with a contrasting reflective strip to enhance their visibility. Available ragged only.

Options

Order Code	Description	Weight
138124 040	Streetwise Bollards	18.0kg

Product details

900mm above ground
300mm below ground
150mm maximum diameter

Installation & use

Ragged bollards require a hole of at least 300mm deep for casting into concrete. AUTOPA recommends that bollards are placed no further than 1,200mm apart to ensure that no vehicle may pass between them. This product is guaranteed for 12 months (*if installed and used correctly*).
