

AUTOPA Open Spaces Flat Top Fencing Rail

AUTOPA's Flat Top Fencing Rail is ideal for marking paths and securing perimeters at residential and commercial properties. The fence panels are supplied galvanised as standard and can be colour coated if required. RAL numbers must be specified at time of order.

The infill bars are manufactured from 12mm diameter mild steel, spaced 100mm apart. AUTOPA's Flat Top fencing rail is available 1000mm or 1200mm above ground with a choice of panel widths. All posts are supplied with the necessary brackets and fixings for ease of installation.
