

AUTOPA open spaces Modern Polyethylene Litter Bin

A modern take on the traditional litter bin, this rotationally moulded polyethylene bin features a decorative stripe at the base of the cover. Highly durable, these bins are UV stable and ideal for high density public areas such as high streets and parks.

All versions feature a removable galvanised mild steel liner and are available in nine standard colours; open top and post mounted versions available on request.

The base of the bin can be bolted onto the floor in the open top and hooded versions for added security.

Product Range

Order Code	Description	Weight
138 108 721	Hooded Top	12.5kg
138 108 731	Open Top	10.8kg
