

Stepped Bollard (Round)

The AUTOPA Mild Steel Stepped Bollard

A functional bollard, robust in design; the Stepped Bollard is constructed using mild steel, galvanised to ensure its longevity. The step offers a decorative feature with the option of adding reflective tape for added visibility.

The bollards are available in a galvanised and a galvanised and coated finish. BS/RAL numbers must be specified at time of order.

Supplied ragged as standard, flanged and removable versions are also available. Removable bollards are secured using a padlock attached to a ground socket. Please ask for more information.

Product Range

Order Code	Description	Lift out Weight	Weight

138 100 907	40mm Brass Padlock with 2 keys (identical key)

Product details

1000mm above ground
500mm below ground

Installation & use

Removable bollards require an excavated hole of at least 400mm³ for the socket (see product details for appropriate depth). AUTOPA recommends that bollards are placed no further than 1,200mm apart to ensure that no vehicle may pass between them. This product is guaranteed for 12 months (*if installed and used correctly*).
