

The AUTOPA Imperial Bollard

Simple and attractive, the Imperial Bollard is ideal for protecting against unauthorised access and parking in communal spaces. Featuring a decorative spherical cap it has a striking appearance, making it popular with prestigious sites.

Manufactured from grade 304 stainless steel as standard (marine grade 316 is available on request), the Imperial Bollard will continue to look good for many years with minimal maintenance.

Options

Order Code	Description	Weight
138 127 101	101mm (Ragged)	9.0kg
138 127 114	114mm (Ragged)	10.0kg

Product details

1000mm above ground
300mm below ground
2mm wall thickness

Installation & use

Ragged bollards require a hole of at least 300mm deep for casting into concrete. AUTOPA recommends that bollards are placed no further than 1,200mm apart to ensure that no vehicle may pass between them. This product is guaranteed for 12 months (*if installed and used correctly*).
