

Sign Post 2500mm Above Ground Galvanised

The AUTOPA Sign Post is designed to be used in conjunction with access control products, allowing site managers to provide information to drivers using traffic signs and mirrors.

The AUTOPA Sign Post is supplied as Galvanised Steel as standard and is available in either ragged for casting in to concrete or flanged for bolting down. Coated finish is available as an option extra (please state BS/RAL numbers at the time of order).

138 106 287	Rectangular Road Sign

Product details

- 2500mm height (above ground)
- Concrete in 500mm (below ground)

Installation & use

Each flanged post requires bolting down to a suitable concrete surface (not less than 300mm cubed) by means of three 12mm anchor bolts.

Each ragged post requires casting into concrete (not less than 300mm x 300mm x 500mm).

This product is guaranteed for 12 months (if installed and used correctly).
