

Manchester 1000mm Polyurethane

The AUTOPA Manchester Polyurethane Bollard has a traditional design and offers an elegant and robust access control solution. Ideal for use around shops, pavements and parking areas, this bollard can be used individually or as a part of wider traffic calming measures.

Corrosion and shatter proof, this bollard is cast in an engineering grade, heavy duty polymer around a steel core.

Available concrete in and black only, polyurethane bollards are a durable like for like replacement for traditional cast iron bollards.

Part Number
138 124 000

Description
Manchester

Weight (kg)
22kg
