

Banbury Cycle Shelter Galvanised Steel Frame

The VELOPA Banbury Cycle Shelter is a fully modular, contemporary, cantilevered cycle shelter. Manufactured from galvanised mild steel as standard to ensure its longevity, the Banbury Shelter is compatible with all standard height VELOPA cycle stands and racks. Complete with 4mm UV stabilised PETG clear sheet roof.

Extension bays can be added to achieve the desired shelter length.

Shown with a Sheffield Toastrack, available extra.

Part Number	Description	Weight (kg)
138 204 570	2m Main Bay - Concrete In	190kg
138 204 572	3m Main Bay - Concrete In	235kg
138 204 574	4m Main Bay - Concrete In	281kg
138 204 576	5m Main Bay - Concrete In	327kg

Product details

- 50mm x 50mm diameter uprights
- 2500mm x 2707mm (max. height x depth)
- Concrete in 600mm (below ground)

Installation & use

Concrete in requires an excavated hole (no less than 1200mm x 600mm x 550mm per end (length x width x depth)).

Allow at least 50mm below the foundations for drainage.

Cladding/roofing needs to be drilled/fixed on site. Sheeting is clamped to frame using clamping strips.

This product is guaranteed for 12 months (if installed and used correctly).
