

# HVM S2 Seat Galvanised with Wooden Slats

The AUTOPA 'HVM S2 SEAT' is manufactured from Mild Steel and Wood, the steel frame has been galvanised to protect the steel from corrosion.

It has been designed to be installed where pedestrians and vehicles could share the same area and has the ability to be removed if necessary to allow access.

It has been designed and tested to withstand vehicle impact and has achieved the following product rating:

**IWA 14-1:2013 Barrier V/1500[M1]/48/90:0.9**

The seat frame is galvanised as standard, colour coating is available as an optional extra (additional cost) and must be specified at the time of order.
