

Mesh Vertical Cycle Locker

1 Holder

Galvanised

The Mesh Vertical Cycle Locker is an extremely robust and secure cycle locker. The bicycle is stored vertically by hanging the front wheel from the integrated hook. The combination of mesh and fully welded angle iron ensures the Mesh Vertical Cycle Locker offers a high level of cycle parking security. The door is internally hinged to further increase the security and the provision for the user to use their own padlock further enhances the security of the Mesh Vertical Cycle Locker.

The practical and durable nature of the Mesh Vertical Cycle Locker ensures that the locker is suitable for all environments where high security cycle parking is required.

<u>Part Number</u>	<u>Description</u>	<u>Weight (kg)</u>
138 250 300	Mesh Vertical Cycle Locker	92kg

Product details

- 1870mm x 835mm x 1276mm (height x width x depth)
