

Rugby Cycle Stand Galvanised, Galvanised & Colour or Stainless

The Rugby Cycle Stand is a P shaped tubular stand, designed to provide cyclists with a secure stand for locking their cycles. The design allows the frame of the bicycle to be secured by the users own security lock. Suitable for securing two bicycles. The Rugby Cycle Stand is available in both galvanised and stainless steel, with ragged feet for casting into new concrete or flanged feet for bolting to an existing surface.

The practical and durable nature of the Rugby Cycle Stand stand ensures that the stand will complement any environment and draw users attention to the provision of bicycle parking areas.
