

Vertical Cycle Holder Galvanised

The Vertical Cycle Holder is suitable for hanging bicycles from the wall, this cycle parking solution which is ideal where space is at a premium requires the user to take the full weight of the bicycle, but is extremely easy to use.

The front wheel of the bicycle is simply hooked over the foam protection bracket, the foam ensures that there is no damage to the cycle.

The eyelet allows for the user to secure their bicycle using their own locking system.

<u>Part Number</u>	<u>Description</u>	<u>Weight (kg)</u>
138 200 290	Vertical Cycle Holder	2kg
138 200 300	Vertical Cycle Holder complete with Eyelet	2kg
