

AUTOPA

Signage is highly recommended when traffic calming measures, such as speed ramp or flow plates, are in place. The correct signage can help prevent damage to vehicles as well as property, and the traffic calming measure itself.

Suitable for outdoor environments such as car parks, the reflective signs are highly visible.

<u>Part Number</u>	<u>Description</u>
138 106 290-5	5mph Round - DIA 670-5
138 106 290-10	10mph Round - DIA 670-10
