

# Chartham Cycle Shelter

The Chartham shelter is a free-standing cycle shelter designed for on site assembly, constructed from galvanised steel and PET sheet. The frame is made entirely from galvanised mild steel.

A variation of the classic VELOPA Canterbury style shelter, the Chartham shelter provides a core element of a compliant cycle parking solution.

## Product details

- 76mm round and 50mm square galvanised steel tube
- 4mm clear PET sheet
- Also available ragged for casting into concrete
- Colour coated options available extra
- Extendable to any length using extension bays

## Installation & use

Each shelter leg requires bolting down to a suitable concrete surface (no less than 1,600 x 500 x 400mm) by means of eight M16 anchor bolts. The area surrounding the installation must be flat and level with no nearby surface irregularities or gradient changes.

On-site assembly requires construction skill.

This product is guaranteed for 12 months (if installed and used correctly).
