

Ingleton Cycle Shelter

The Ingleton shelter is a free-standing, single sided cycle shelter designed for on site assembly, constructed from galvanised steel and PET sheet. The frame is made entirely from galvanised mild steel.

The rolled round tube legs offer an elegant yet strong frame that emphasises the modern aesthetic of the shelter,

The Ingleton shelter is an ideal basis for sheltered cycle parking needs in public spaces.

<u>Part Number</u>	<u>Description</u>	<u>Weight (kg)</u>
138 204 511	2m Main Bay, Bolt down	228.0kg
138 204 501	3m Main Bay, Bolt down	273.0kg
138 204 504	4m Main Bay, Bolt down	319.0kg

138 101 014	Pack of 32 M16 Expanding bolts (for fixing 9-10m)	

Product details

- 76mm round and 50mm square galvanised steel tube
- 4mm clear PET sheet
- Also available ragged for casting into concrete
- Colour coated options available extra
- Extendable to any length using extension bays
- Cycles accessible from both sides of shelter

Installation & use

Each shelter leg requires bolting down to a suitable concrete surface (no less than 1,600 x 500 x 400mm) by means of eight M16 anchor bolts. The area surrounding the installation must be flat and level with no nearby surface irregularities or gradient changes.

On-site assembly requires construction skill.

This product is guaranteed for 12 months (if installed and used correctly).
