

## The AUTOPA Delaval Polyurethane Bollards

Traditional and sturdy in design, the Delaval Polyurethane Bollard provides a simple, yet elegant, parking and access control solution. Ideal for use individually, or as a part of a wider traffic calming measure, they are suitable for a range of locations. Corrosion and shatter proof, these bollards are cast in an engineering grade, heavy duty polymer around a steel core.

Available ragged and black only, polyurethane bollards are a highly durable like for like replacement for traditional cast iron bollards.

## Options

Order Code	Description	Weight
138 124 090	Ragged	21.0kg

## Product details

800mm above ground  
300mm below ground  
150mm overall diameter

## Installation & use

Ragged bollards require a hole of at least 300mm deep for casting into concrete. AUTOPA recommends that bollards are placed no further than 1,200mm apart to ensure that no vehicle may pass between them. This product is guaranteed for 12 months (*if installed and used correctly*).
