

The AUTOPA Redroute Polyurethane Bollard

Functional yet striking, the AUTOPA Redroute Polyurethane Bollard has a classic and practical design. This bollard is best suited as part of traffic calming measures within an urban environment.

Cast in an engineering grade, heavy duty polymer, around an integral steel core, this bollard is corrosion and shatter proof. Available ragged and black only, polyurethane bollards are a durable replacement for traditional cast iron bollards.

Options

Order Code	Description	Weight
138 124 080	Ragged	18.0kg

Product details

950mm above ground
300mm below ground
150mm overall diameter

Installation & use

Ragged bollards require a hole of at least 300mm deep for casting into concrete.
Ragged bollards are supplied with welded fixing spikes to ensure firm ground anchorage.
AUTOPA recommends that bollards are placed no further than 1,200mm apart to ensure that no vehicle may pass between them.
This product is guaranteed for 12 months (*if installed and used correctly*).
