

# Canterbury Cycle Shelter

The Canterbury Cycle Shelter is an extremely robust and classically designed, free-standing cycle shelter designed for on site assembly, constructed from galvanised steel and PET sheet. The VELOPA Canterbury Cycle Shelter is a popular design that exemplifies the AUTOPA approach to cycle parking, the shelter is designed and fabricated to look good for years. The frame is made from 76mm galvanised mild steel round tube. The roof is available in either polycarbonate or corrugated steel.

The 3.5m version of the Canterbury Cycle Shelter is designed to accommodate 8 bicycles per bay, typically using Sheffield Style Cycle Stands.
