

Cantilever Cycle Shelter

The Cantilever Cycle Shelter is an extremely robust and classically designed, free-standing, single sided cycle shelter designed for on site assembly, constructed from galvanised steel tube with a galvanised or plastisol colour coated sheet roof. The VELOPA Cantilever Cycle Shelter is a popular design that exemplifies the AUTOPA approach to cycle parking, the shelter is designed and fabricated to look good for years. The frame is made from 76mm galvanised mild steel round tube.

The Cantilever Cycle Shelter is designed to accommodate 8 bicycles per bay, typically using Sheffield Style Cycle Stands.

<u>Part Number</u>	<u>Description</u>	<u>Weight (kg)</u>
138 200 510	Main Bay, Galvanised Roof, Bolt down	232.0kg
138 200 500	Main Bay, Plastisol Roof, Bolt down	232.0kg
138 200 512	Extension Bay, Galvanised Roof, Bolt down	165.0kg
138 200 505	Extension Bay, Plastisol Roof, Bolt down	165.0kg

Product details

- 2200mm x 2260mm (height x depth)
- 3168mm (length, per bay)

Installation & use

Each end frame requires bolting to a suitable concrete surface (no less than 1,600mm x 500mm x 400mm) by means of 8 M16 bolts.

On-site assembly requires construction skill.

This product is guaranteed for 12 months (if installed and used correctly).
