

The VELOPA Semi-Vertical Cycle Rack

The VELOPA Semi-Vertical Cycle Rack is designed to offer a cycle parking solution suitable for where space is at a premium. The design allows the user to lock their bicycle through the stand to ensure security, the ramp allows easy placing of the bicycle into place and the hooped bar at the base ensures the bicycle is retained in position correctly. The Semi-Vertical Cycle Rack alternates high and low holders to allow for greater cycle parking density. Individual Holders are also available.

The practical and durable nature of the VELOPA Semi-Vertical Cycle Rack ensures that the rack is suitable for all environments where high density of cycle parking is required, especially those where space is at a premium.

Options

Order Code	Description
