Vine

The AUTOPA open spaces Square Tree Grille

An AUTOPA open spaces Tree Grille is an essential part of an urban landscape. Manufactured from corrosion resistant Ferrocast Polyurethane, these grilles will prevent delicate roots from being damaged by passing traffic, both vehicular and pedestrian. The contemporary styling makes them ideal for use on any site.

Tree grilles are supplied in two parts and are joined either using a bolt or spike fixing. A frame is required to stabilise the grille and prevent it from sagging around the tree.

Options

Order Code	Description	Weight
138 124 110	Ivy Tree Grille	28.0kg
138 124 120	Petal Tree Grille	28.0kg
138 124 130	Rose Tree Grille	28.0kg
138 124 100	Vine Tree Grille	28.0kg

Accessories & installation parts

138 124 500	Tree Grille Frame
-------------	-------------------

Product details

1200mm x 1200mm (length x depth)
400mm aperture
Standard finish RAL 9005

Installation & use

Tree Grilles require bolting down to a concrete foundation of at least 1200mm².

Tree Grille Frames require bolting together by means of four M8 bolts and fixing to a suitable foundation by means of four M12 bolts.

Tree Grilles require bolting to a frame using M8 countersunk bolts (number of bolts is dependant on Tree Grille) and should be flush with the ground level.

This product is guaranteed for 12 months (*if installed and used correctly*).
