

*The EB400 Plastic Marker Post is a slimline medium density polyethylene (MDPE) hollow marker post. This hard wearing bollard is ideal for marking paths where space is at a premium*

*The EB400 Plastic Marker Post is available ragged only and is supplied black as standard*

*Self-adhesive reflective strips can be added to the neck of the bollard if required (as shown above)*

## Product Range

Order Code	Description	Weight
138 160 200	EB400 Ragged (Hollow)	1.0kg
138 160 201	EB400 Ragged (Hollow) complete with white bands	1.0kg

## Product details

1000mm above ground height  
110mm diameter

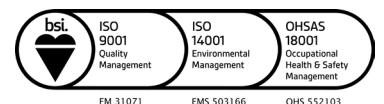

## Installation & use

Ragged versions require setting with concrete into a hole of at least 300mm x 300mm x 400mm (length x width x depth).  
To prevent against vehicle access, AUTOPA recommends the distance between bollards does not exceed 1200mm.  
This product is guaranteed for 12 months (if installed and used correctly).
