

Designed to be used in conjunction with access control products, the Sign Post allows site managers to provide information to drivers using traffic signs and mirrors.

The Sign Post is supplied Galvanised Steel as standard and is available in either ragged for casting in to concrete or flanged for bolting down.

Coated finish is available as an optional extra (RAL / BS numbers must be specified at time of order).

Product Range

Order Code	Description

Product details

2500mm height above ground
500mm below ground depth (Ragged)

Installation & use

Each flanged post requires bolting down to a suitable concrete surface (not less than 300mm cubed) by means of three 12mm anchor bolts.
Each ragged post requires casting into concrete (not less than 300mm x 300mm x 500mm).
This product is guaranteed for 12 months (if installed and used correctly).
