

# Plain Square Bollard 900mm Above Ground Stainless Steel

AUTOPA's range of Plain Square Stainless Steel Bollards offers a simple and cost effective means of establishing control over parking and access. Plain Square Stainless Steel Bollards are ideal for use around pedestrian precincts, pavements, play and parking areas, as part of traffic calming measures, pedestrianisation schemes and as a deterrent to ram-raiders.

The complete range of Plain Square Stainless Steel Bollards are available in a variety of sizes in Grade 304.

Bolt down and removable versions are also available.

## Product details

- 900mm tall above ground
- Concrete In Bollards - 300mm below ground
- Removable version available upon request
- Supplied with welded flat cap
- Bolt down version available upon request

## Installation & use

Concrete in bollards require an excavated hole (no less than 400mm x 400mm x 300mm) for installation  
Bolt down bollards require bolting to a suitable concrete surface (no less than 400mm x 400mm x 300mm) by means of M12 stainless steel bolts  
AUTOPA recommends that bollards are placed no further than 1,200mm apart to ensure that no vehicle may pass between them  
This product is guaranteed for 12 months (if installed and used correctly)
